Pest control

Pest control services based on an assessment of the property and the pest concerns reported by the client.

Assessment of pest activity

Treatment scope based on site findings

Service scheduling and contractor coordination

Treatment and specialist requirements follow the site assessment.

Sewage treatment plant (STP)

Oceanides coordinates STP projects for treating building wastewater on site, with the system and installation scope defined by specialist assessment.

Site assessment	Review wastewater flow, space and the proposed outlet.
Scope & quotation	Define the proposed system and installation needs.
Specialist coordination	Coordinate specialist delivery through turnover.

System details, capacity and maintenance requirements follow the agreed technical proposal.

Rethink your quarterly hauling bill

Toilets, sinks and wash areas

Malaki ba ang quarterly siphoning bill ng building mo? Araw-araw, may wastewater mula sa toilets, sinks at wash areas.

Illustrative process. Actual design follows site assessment.
