OPC TIN: TO FOLLOW

COMPANY PROFILE

One partner for your property service needs

Plumbing. Septic services. Pest management.
Cleaning. Renovation. Treatment systems.

Commercial / Industrial / Residential

AI conceptual illustration; not a project or engineering design.

Essential services, one point of contact

Oceanides brings plumbing, septic tank services, pest management, cleaning and property improvement together for commercial, industrial and residential clients.

Our service relationships grew through recurring plumbing, septic tank and grease tank work. We have expanded our offer under Oceanides Plumbing Siphoning & Pest Management Services OPC.

Oceanides asset-library photograph

Priority service in Metro Manila and nearby provinces.
Nationwide work by arrangement.

Our purpose and service values

OUR MISSION

Provide professional, reliable property services with clear scope, responsive coordination and care for the client's site.

OUR VISION

Be a long-term service partner that clients trust with their property maintenance and improvement needs.

OUR VALUES

Quality. Integrity. Respect.
Teamwork. Customer satisfaction.

A broader range of property services

SEPTIC AND DRAINAGE

- Septic tank siphoning
- Manual septic tank cleaning
- Drain and pipe declogging
- Grease tank and trap cleaning

REPAIRS AND PROPERTY CARE

- Plumbing
- Excavation
- General cleaning
- Renovation, restoration and leak repairs
- Air-conditioning cleaning

PEST AND TREATMENT SYSTEMS

- Pest management
- Onsite wastewater treatment systems

Cleaning work: before and after

BEFORE CLEANING

AFTER CLEANING

Actual Oceanides photographs show the chamber condition before and after cleaning.

The specific project site, service date and approved case-study details are still to be added.

Septic Tank Siphoning

Plan septic tank servicing before an overflow disrupts your property.

Oceanides provides septic tank siphoning for commercial, industrial, and residential properties. We coordinate access, the work area, and the agreed service schedule with your site representative.

- Review of tank access and service requirements
- Removal of accumulated septic contents within the agreed scope
- Coordination with site personnel during the work
- Recommendations for the next service based on site conditions

AI-generated service illustration

Plan servicing around your operations and reduce avoidable tank-related disruption.

Manual Septic Tank Cleaning

AI-generated service illustration

Choose a cleaning plan that matches tank conditions, access and safety requirements.

Address deposits and buildup that require more detailed cleaning.

Oceanides assesses deposits that need detailed cleaning beyond siphoning. The method follows tank condition and access. Any confined-space entry requires qualified personnel, suitable equipment, and applicable safety procedures.

- Assessment of remaining sludge and solid deposits
- Selection of a suitable cleaning method
- Detailed cleaning within the agreed work area
- Site turnover and maintenance observations

Plumbing Services

AI-generated service illustration

Keep your property's water supply and drainage working.

Oceanides handles plumbing assessment, repairs, and installation work for existing properties and renovation projects. We identify the affected area and explain the proposed work before implementation.

- Water supply and drainage assessment
- Pipe and fixture repair or replacement
- Installation and alteration within the approved scope
- Functional checks and site turnover

Coordinate repair and maintenance concerns through one point of contact.

Excavation Services

Create access for the underground work your property needs.

Oceanides provides excavation support for plumbing, drainage, septic tank, and related property works. The method and boundaries follow a site review, utility coordination, and the approved work scope.

- Site access and excavation scope review
- Coordination of known utilities and work boundaries
- Excavation for agreed plumbing or drainage works
- Backfilling and surface reinstatement where included

Stock: IntangibleArts / Wikimedia Commons, CC BY 2.0; cropped

Coordinate excavation, repairs and reinstatement through one agreed work scope.

Drain and Pipe Declogging

AI-generated drainage illustration

Understand whether a recurring problem needs cleaning, inspection or repair.

Address slow drains and blocked lines before problems spread.

Oceanides assesses drainage blockages and applies a suitable clearing method based on pipe condition, access, and the likely cause. Recurring blockages may require a separate repair or further inspection.

- Review of the affected drainage line
- Clearing of accessible blockages within scope
- Water-flow checks after the work
- Advice on recurring issues and further repairs

Grease tank and trap cleaning

Oceanides asset-library photograph; client/site not specified

Keep grease buildup from becoming a recurring kitchen drainage problem.

Oceanides provides grease tank and grease trap cleaning for food-service properties and other sites with grease-management needs. Work is coordinated around access and your operating schedule.

- Assessment of grease tank or trap access
- Removal of accumulated grease and settled waste
- Cleaning of accessible internal areas within scope
- Recommendations for a practical cleaning schedule

Manage grease buildup with a cleaning schedule suited to your kitchen.

Pest Management Services

Protect the spaces where people work, stay, and dine.

Oceanides develops a pest-management scope around the pest concern, property use, and site findings. Programs can support restaurants, hotels, condominiums, offices, warehouses, and residential properties.

- Site inspection and pest concern assessment
- Treatment plan for the identified concern
- Coordination of preparation and re-entry instructions
- Follow-up and prevention advice within the agreed program

AI-generated service illustration

Combine treatment, prevention advice and follow-up in one agreed program.

General Cleaning Services

Representative stock photograph; not an Oceanides project

Present a cleaner, better-cared-for space to everyone who enters.

Oceanides provides cleaning support for commercial and residential properties. Cleaning areas, frequency, materials, and exclusions are defined with the client before work starts.

- Site walkthrough and cleaning checklist
- Cleaning of agreed rooms and common areas
- Coordination around occupancy and site access
- Completion review with the client representative

Use a clear checklist to coordinate cleaning and review completion.

Renovation, restoration and leak repairs

AI-generated service illustration

Repair damaged spaces and plan improvements with a defined scope.

Oceanides accepts renovation and restoration work for homes, condominiums, and commercial properties, including ceiling repairs and water-leak concerns. The proposed work follows a site assessment, with specialist involvement where the project requires it.

- Site assessment of damage and requested improvements
- Ceiling repair and restoration within scope
- Water-leak investigation and proposed corrective work
- Renovation coordination and agreed finish review

Coordinate related repairs, access, schedules and turnover in one scope.

Air-Conditioning Cleaning

Include your air-conditioning units in your property maintenance plan.

Oceanides provides air-conditioning cleaning based on unit type, access, and condition. Cleaning findings that require repair or further technical work are discussed separately with the client.

- Review of unit type and service access
- Cleaning of agreed accessible components
- Drainage and visible-condition observations
- Basic operation check after cleaning

Stock air-conditioning maintenance photo; not an Oceanides project

Plan unit upkeep and identify issues that need technical attention.

Onsite wastewater treatment systems

A treatment system at your property, backed by agreed operating support.

Begin with a site assessment to define a suitable treatment approach and a complete operating plan.

Your property

Wastewater flows, tanks, space and maintenance records

Technical assessment

Treatment approach, capacity, installation and costs

Operating plan

Maintenance, monitoring, sludge removal and agreed support

Compare the proposed system with your current maintenance pattern before deciding.

What changes with a treatment system?

Your current service pattern

Start with the property's actual operating records.

- Tank condition and available space
- Siphoning and cleaning frequency
- Disruption, access and service cost

A proposed treatment plan

Assess the complete operating requirements.

- System capacity and installation works
- Energy, monitoring and sludge removal
- Maintenance, support fees and responsibilities

Any reduction in cost or service frequency must be supported by a site-specific assessment.

Installation is the start of ongoing support

01

Assess

Review flows, tanks, access and operating needs.

02

Propose

Define technology, capacity, scope and costs.

03

Install

Coordinate delivery, checks and handover.

04

Support

Agree servicing, guidance and document assistance.

Support terms and permit-document responsibilities are agreed in writing. Regulatory decisions remain with the relevant authority.

Organizational structure

Finance and accounting
HR and administration

Drivers, servicers and helpers
Onsite service coordination

Digital marketing
Sales and inquiry coordination

Client support: Floreza | Digital marketing: Queenie and Aubrey

Current names and roles confirmed. Reporting lines remain for management confirmation.

Customer Service Representative

Client inquiries and service coordination.

Company and project documentation

Documentation is coordinated during supplier accreditation and project scoping.

Company registration	SEC and 2026 business-permit copies in the appendix
Service-specific records	Documents applicable to the agreed work and service provider
Treatment and disposal	Relevant facility records, agreements and supporting documentation
Project handover	Agreed completion records, operating guidance and service reports

OPC BIR COR/TIN and an updated Globaltec discharge-permit copy remain to follow.

A clear process for every engagement

01 **Tell us what your site needs**
Share the location, property type, service concern, and preferred schedule.

02 **Review the scope**
Oceanides assesses the information and arranges a site visit where needed.

03 **Approve the proposal**
Review the work scope, price, schedule, site requirements, and agreed responsibilities.

04 **Coordinate the service**
Our team works with your representative on access, implementation, and progress updates.

05 **Review and plan ahead**
Confirm completion and discuss any recommended follow-up or recurring service needs.

Metro Manila first. Wider reach by arrangement.

PRIORITY SERVICE AREAS

Metro Manila

Cavite, Laguna, Batangas and Rizal

Bulacan, Pampanga and Bataan

Zambales, including Subic and Olongapo

EXTENDED COVERAGE

Central and Northern Luzon

Nationwide projects by arrangement

Detailed city and municipality coverage follows in the appendix.

Service availability, travel requirements and schedules are confirmed for each request.

Let us review your property service needs

Arrange a site assessment or discuss a service proposal with Oceanides.

CERTIFICATE OF INCORPORATION

KNOW ALL PERSONS BY THESE PRESENTS:
This is to certify that the Articles of Incorporation of:

Oceanides Plumbing Siphoning & Pest Management Services OPC

were approved by the Commission on this date upon the issuance of this Certificate of Incorporation in accordance with the Revised Corporation Code of the Philippines (Republic Act No. 11232), which took effect on February 23, 2019 and copies of said digitally signed and digitally authenticated Articles of Incorporation automatically form part of the records of the corporation in the Commission.

This electronically issued digital Certificate grants juridical personality to the corporation but does not authorize it to issue, sell or offer for sale to the public, securities such as but not limited to, shares of stock, investment contracts, debt instruments and virtual currencies without prior Registration Statement approved by the Securities and Exchange Commission; nor to undertake business activities requiring a Secondary License from this Commission such as, but not limited to acting as: broker or dealer in securities, government securities eligible dealer (GSED), investment adviser of an investment company, close-end or open-end investment company, investment house, transfer agent, commodity/financial futures exchange/broker/merchant, financing/lending company, and time shares/club shares/membership certificate issuers or selling agents thereof; nor to operate a fiat money to virtual currency exchange. Neither does this Certificate constitute a permit to undertake activities for which other government agencies require a license or permit.

This Certificate **DOES NOT AUTHORIZE INVESTMENT SOLICITATION AND INVESTMENT-TAKING WITHOUT A SECONDARY LICENSE FROM THIS COMMISSION.**

As a registered corporation, it shall submit annually to this Commission the reports indicated at the back of this certificate.

This Certificate is issued at The SEC Headquarters 7907 Makati Avenue, Salcedo Village, Barangay Bel-Air, Makati City, 1209, Metro Manila, Philippines, on this day of 14 January Two Thousand Twenty Six.

Mr. YOUNGMIN KIM
Managing Head
GLOBALTEC WASTE MANAGEMENT, INC.
9 Westmont Industrial Subdivision,
Loma de Gato, Marilao, Bulacan

Subject: ENVIRONMENTAL COMPLIANCE CERTIFICATE

Dear Mr. Kim,

This refers to the Environmental Compliance Certificate (ECC) amendment application for the ***expansion of Non- Hazardous and Hazardous Waste Treatment, Storage and Disposal (TSD) Facility*** located in Barangay Loma de Gato, Marilao, Bulacan.

After satisfying the requirements of Presidential Decree No. 1586 and its Implementing Rules and Regulation, this Bureau has decided to grant an amended ECC for the above-mentioned project.

In issuing this **CERTIFICATE,** it is expected that you will diligently secure pertinent PERMITS/CLEARANCES from all concerned government agencies.

With the issuance of this amended ECC, you are expected to continually implement the measures presented in the Environmental Performance Report and Management Plan (EPRMP), intended to protect and mitigate the project's adverse impacts on community health, welfare and the environment. Environmental considerations shall be incorporated in all phases and aspects of the project. You may proceed with the project implementation after securing all the necessary permits from other pertinent government agencies. This Office will be monitoring the project periodically to ensure your compliance with stipulations cited in the attached ECC.

Please be guided accordingly.

Very truly yours,

FOR. ANDRESITO S. CABALAR, Ph.D.

ENVIRONMENTAL COMPLIANCE CERTIFICATE
(Issued under Presidential Decree 1586)
ECC Reference Code No. ECC-R03-2412-0028
(Amending ECC-R03-10072015-3754)

THIS IS TO CERTIFY THAT THE PROPONENT, **GLOBALTEC WASTE MANAGEMENT, INC.**, represented by **Mr. Youngmin Kim**, is granted this amended Environmental Compliance Certificate (ECC) for the ***expansion of Non- hazardous and Hazardous Waste Treatment, Storage and Disposal (TSD) Facility*** located in Barangay Loma de Gato, Marilao, Bulacan, by the Department of Environment and Natural Resources (DENR), through the Environmental Management Bureau (EMB).

THIS IS SUBJECT to the conditions and restrictions set in this ECC and in the attached document labelled as Annex A. Recommendations have been provided in Annex B as guidance to concerned government agencies and local government units for consideration in their decision making.

This Certificate is issued with the following details:

PROJECT DESCRIPTION

*The ECC covers the **Non- Hazardous and Hazardous Waste Treatment, Storage and Disposal (TSD) Facility** in an area of **4,610.00 square meters** under Contract of Lease located in Barangay Loma de Gato, Marilao, Bulacan, Region 03.*

The project has the following components to include:

Project Component	No. of Unit/s	Capacity/ Area	Specifications/ Treatment Method
		Existing	
Hazardous Waste Treatment, Storage and Disposal	**1**	**30,000 MT/year**	
Hazardous Waste Class			
Wastes with Cyanide	-	300 MT/year	No details in previous ECC
Acid Waste	-	5,000 MT/year	
Alkali Wastes	-	5,000 MT/year	
Wastes with Inorganic Chemicals	-	3,500 MT/year	
Reactive Chemical Wastes	-	300 MT/year	
Inks/Dyes/Pigments/Paints/Resins/ Latex/ Adhesives/ Organic Sludge	-	4,000 MT/year	
Waste Organic Solvents	-	3,000 MT/year	
Organic Waste	-	3,500 MT/year	
Oil	-	3,000 MT/year	
Containers	-	300 MT/year	
Stabilized Wastes	-	300 MT/year	
Organic Chemicals	-	300 MT/year	
Miscellaneous Wastes	-	1,500 MT/year

Annex A

CONDITIONS

I. ENVIRONMENTAL MANAGEMENT

All commitments, mitigating measures and monitoring requirements, especially those contained in the Environmental Performance Report and Management Plan (EPRMP), particularly in the Environmental Management and Monitoring Plan (EMMoP), shall be instituted to minimize any adverse impact to the environment throughout the project implementation including among others the following, *to wit:*

POTENTIAL IMPACT PER PROJECT ACTIVITY PER PROJECT PHASE	MITIGATING MEASURES	RATING/ PERFORMANCE OF MITIGATING MEASURES
A. Operational Phase		
Generation of Waste water	• Provision of hygienic septic tank (for 212 occupants or less – DILG MC 2019-62) with regular desludging by third party contractor (the contractor must have a valid discharge permit of its treatment facility Note: For 98L per person per day water consumption; 80% will become wastewater – hence for 300 persons; at least 23.52 cubic meter per day WTF capacity shall be installed and operated	100% compliance with RA 9275
Generation of solid wastes	• Provision and maintenance of Materials Recovery Facility (MRF) • Implement recovery, re-use and recycling of waste materials • Provide receptacles/ bins for solid wastes • Composting of organic wastes	100% compliant to RA 9003
Noise pollution due to process operation	• All workers must be equipped with PPEs • Provision of enclosure/s for the equipment (if applicable)	100% compliant to RA 8749
Generation of effluents due to wastewater generation	• Provision of wastewater treatment facilities • Monitoring of the following significant effluent quality parameters (based on PSIC Code 032): ☑ Color ☑ Temperature ☑ pH ☑ Total Suspended Solids ☑ Total Coliform ☑ Ammonia ☑ Nitrate ☑ Phosphate	100% compliance with DENR effluent standards (RA 9275); (i.e., DAO 2016-08 and DAO 2021-19)

II. GENERAL CONDITIONS

1. That the proponent shall ensure that appropriate air pollution control devices shall be installed to minimize or control odor, fumes i.e. Volatile Organic Compounds (VOC) emissions from the Waste Oil Treatment Facility and Waste Solvent Treatment Facility;
2. That the proponent shall implement proper collection, handling, storage and disposal of generated residual wastes;
3. That all wastewater shall be channeled into the Wastewater Treatment Facility (WTF) and should not be directly discharged into any bodies of water. Effluent shall conform with the DENR standards subject to monitoring by this Office;
4. That the proponent shall ensure that the multi-chambered septic tank is water-tight. Siphoning/desludging of the same shall be undertaken. Septage shall be hauled/transported and treated by a third-party Licensed Hauler and Treater;
5. That planting of trees shall be undertaken either within the project site and/or in other areas as part of the proponent's social and environmental program;
6. That all permits and clearances shall be secured from the concerned national and local government offices during project operation;
7. That a quarterly Self-Monitoring Report (SMR) shall be submitted to this Office thru *client.emb.gov.ph/smr* and semi-annual Compliance Monitoring Report (CMR) shall be submitted to this Office thru *cmronline.emb.gov.ph/cmr* within fifteen (15) calendar days after the end of each quarter and semester, respectively;
8. That the operation of the project shall conform with the applicable provisions of RA 9003 (Ecological Solid Waste Management Act of 2000) and its corresponding Implementing Rules and Regulations;
9. That the operation of the project shall conform with the applicable provisions of RA 9275 (Philippine Clean Water Act of 2004) and its corresponding Implementing Rules and Regulations (i.e. Secure Discharge Permit, etc.);
10. That the operation of the project shall conform with the applicable provisions of RA 8749 (Philippine Clean Air Act of 1999) and its corresponding Implementing Rules and Regulations (i.e. Secure Permit to Operate Air Pollution Source and Control Installations, etc.);

Provider facility record, subject to attached conditions. An ECC is not an operating permit.

11. That the operation of the project shall conform with the applicable provisions of RA 6969 (Toxic Substances and Hazardous and Nuclear Wastes Control Act of 1990) and its corresponding Implementing Rules and Regulations Act of 1999) and its corresponding Implementing Rules and Regulations (i.e. Hazardous Waste Generators ID, etc.);

12. That the proponent shall ensure that all generated sludge from the treatment processes has undergone treatment and passed the Toxicity Characteristics Leaching Procedure (TCLP), Reactivity, Ignitability and Corrosivity tests prior to its disposal to DENR registered Sanitary Landfill. Results of the analyses shall be attached to the quarterly submission of SMR;

13. That the TSD operation of the project shall comply with the applicable provisions of DENR Administrative Order No. 22, Series of 2013 and other related issuances;

14. That the proponent shall conduct quarterly effluent sampling tests for Color, Temperature, pH, COD, Total Suspended Solids, Total Coliform, Ammonia, Nitrate, Phosphate, Sulfate, Chloride, Oil and Grease, Surfactants and other relevant parameters and results of analysis will be attached/included on the quarterly submission of Self-Monitoring Report (SMR);

15. That the proponent shall conduct semi-annual ambient air sampling tests for Total Suspended Particulates (TSP), Sulfur Dioxide (SO_2), Nitrogen Dioxide (NO_2), Ammonia (NH_3), and Hydrogen Sulfide (H_2S) in upwind and downwind stations. Results of analysis will be attached/included on the submission of SMR and CMR;

16. That should there be any complaint from the community related to odor, nuisance, smoke emission, chemical spillages, effluent discharges and sanitation problem brought about by the project's operation, the proponent shall be held responsible to address such problems;

17. That the proponent shall implement an Emergency Preparedness, Contingency Plan and Preventive Maintenance to address possible case of explosion, leakage, fire and other nuisance/incident;

18. That the proponent shall allow inspection or monitoring that will be conducted by this Office and concerned DENR offices at any reasonable time;

19. That in case there is an adverse impact caused by the project, all activities causing the same shall be stopped and remedial measures shall be implemented and this Office shall be informed immediately;

20. That an Abandonment Plan including an Environmental Site Assessment (ESA) shall be submitted to this Office ninety (90) days prior to the pull out of storage tank(s)/ facilities and the project's abandonment. The plan shall include remediation, clean-up and rehabilitation measures of contaminated areas and proposed alternative project or activity suitable in the area;

21. That safety and preventive measures, including the posting of warning signs in conspicuous places of the project site shall be properly observed and practiced at all times;

22. This Certificate shall be considered automatically revoked if the project operation is suspended or stopped for a period of five (5) years or more, such that significant changes in land and resource usage have occurred in the project area and its vicinities;

FACILITY

Treatment, storage and disposal facility in Marilao, Bulacan

Provider facility record, subject to attached conditions. An ECC is not an operating permit.

23. That the personnel, especially those who will be directly involved in the hazardous waste treatment operations, shall be equipped with appropriate Personal Protective Equipment (PPEs). The proponent shall conduct seminars/ trainings on the facility operation and proper handling and management of waste;

III. SPECIFIC CONDITION

24. That proponent shall designate a Pollution Control Officer in accordance with RA 8749, RA 9275 and DAO 2014-02, who shall handle the environmental aspects of the project and shall have the following responsibilities:

    a. Ensure that all post-permitting requirements are complied with;
    b. Ensure that monitoring and reporting are undertaken; and,
    c. Ensure compliance with all the conditions and restrictions of the approved ECC.

25. That a 2' X 4' billboard containing this message: **"Notice to the Public: This Non-Hazardous and Hazardous Waste Treatment, Storage and Disposal Facility of GLOBALTEC WASTE MANAGEMENT, INC. has been issued an amended Environmental Compliance Certificate with Reference No. ECC-R03-2412-0028 by the Environmental Management Bureau of the Department of Environment and Natural Resources, Region III, on DEC 27 2024"** must be installed at the entrance gate of the facility visible to the general public and a picture of compliance with this condition shall be submitted to this Office thru *recordsr3@emb.gov.ph* within thirty (30) days from receipt of this Certificate;

26. That this Certificate shall supersede the **ECC with Reference No. ECC -R03-10072015-3754** issued on **23 November 2015** and amended on **23 November 2021.** Original copy of the superseded ECCs shall be surrendered within thirty (30) days upon receipt of this amended Certificate;

IV. RESTRICTIONS

27. That no activities shall be undertaken other than what were stipulated in the EPRMP. Should there be any expansion of the project beyond the project description or any change in the activity or transfer of location, the same shall be subject to a new Environmental Impact Assessment;

28. That the EMB-3 reserves the right to cancel or withdraw this Certificate for any misrepresentation of facts vital to the issuance of this Certificate and for any violation of the conditions stipulated hereof;

29. That no cutting of trees, both planted and naturally-grown trees shall be undertaken without first securing Permit to Cut from the DENR Region 3;

30. That in case of transfer of ownership of this project, these same conditions and restrictions shall apply and the transferee shall be required to notify this Office within fifteen (15) days as regards to the transfer of ownership; and

31. That this Environmental Compliance Certificate (ECC) shall not be misconstrued as a Permit but rather a Planning Tool with set of conditions which the proponent must follow throughout

WASTEWATER DISCHARGE PERMIT

Pursuant to Section 14, Article 2, of the RA 9275 otherwise known as the "Philippine Clean Water Act of 2004", this permit is hereby granted to **Globaltec Waste Management, Inc.** with office address at 9 Westmont Industrial Subdivision, Loma De Gato, Marilao, Bulacan for its establishment:

GLOBALTEC WASTE MANAGEMENT, INC. TIN No. 008-839-354-000	9 WESTMONT INDUSTRIAL SUBDIVISION LOMA DE GATO MARILAO BULACAN

Permit Conditions

1. The permit holder shall discharge to a **Drainage Canal** through **Loma de Gato Creek** leading to **Marilao River**, for the period of one (1) year with an actual effluent wastewater flow of **75 cubic meters per day** in conformity with DENR Department Administrative Order Nos. 2016-08 (Water Quality Guidelines and General Effluent Standards) and 2021-19 (Updated WQG and GES for Selected Parameters) and shall comply with the following Standards:

Significant Parameters	Standards
BOD	50 mg/L
Chromium (hexavalent)	0.02 mg/L
Lead	0.1 mg/L
Surfactants (MBAS)	15 mg/L
Temperature	3 °C Change
COD	100 mg/L
Color	150 TCU
Selenium	0.04 mg/L
Oil and Grease	5 mg/L
Mercury	0.004 mg/L
Phosphate	4 mg/L
Arsenic	0.04 mg/L
Total Suspended Solids	100 mg/L
Barium	6 mg/L
Cadmium	0.01 mg/L

2. The permit holder shall submit a quarterly Self-Monitoring Report to this Bureau (thru iis.emb.gov.ph/crs) in accordance with DENR Administrative Order No. 27 (Series of 2003). The deadline for the submission shall be fifteen (15) days after the end of each quarter. Further, sampling and analysis of effluent on the above parameters conducted by a Third Party Laboratory duly recognized by EMB shall form part of the submitted SMR.
3. The permit holder shall maintain an accessible pathway for its existing Wastewater Treatment Facility (WTF) and effluent outfall.
4. The permit holder shall properly maintain and operate the existing Wastewater Treatment Facility consisting of One (1) Unit Screening System, One (1) Unit Oil-Water Separation (Flotation) Tank, One (1) Unit Flocculation/Coagulation with pH Adjustment, One (1) Unit Single Batch Reaction Tank, One (1) Unit Activated Sludge Tank with a design capacity of **75 cubic meters per day**.
5. The permit holder shall allow the entry of authorized personnel to conduct an inspection and other related activities for compliance monitoring of the TSD Facility.
